

ABSTRACT

5 A chain guide with Multiple Joints having a plurality of sections (62, 64, 66) with each section conjoined together via a link (68) is provided. Each of the plurality of sections (62, 64, 66) has a partial upper side (12i) which forms, in part, an upper side of the chain guide. All of the partial upper side (12i) of the plurality of sections (62, 64, 66) together form the upper side of the chain guide.
